Faculty Senate Resolution
Information Technology Communication

Whereas Southern Connecticut State University exists for the primary purpose of furthering academic excellence;

And whereas the faculty is committed to providing instruction enhanced with technology;

And whereas during the summer and intersessions, more classrooms are equipped with technology;

And whereas some of the existing classrooms with technology are upgraded or the keys to the technology stations are changed without the knowledge of the faculty;

And whereas computer software and hardware upgrades are implemented in the computer labs and classrooms without the knowledge of faculty;

And whereas technological repairs are made in classrooms and labs during semesters and intersessions without the knowledge of faculty;

And whereas such unannounced updates negatively impact the ability of faculty to efficiently and effectively conduct their classes;

Be it resolved that:

The university provides a newsletter to inform all full time and part time faculty, prior to the beginning of each semester and other means of communication during the semester as technology and technology service changes occur.
